CHANGES AT THE U. S. SMELTER

Automatic Feeding System to Be Discontinued.

CENTURY'S CONCENTRATES

PAYING MONEY FOR BEAVER

NEW YORK MAY NOT ASSESS. Directors Informally Decide to Hold

Off, Pending Manager's Report. Manager John McSorley of the New ork Bonanza returned from his trip to be coast yesterday morning greatly benetted in health and anxious to get back camp and note the changes which ave taken place in the property since he ent away. Wednesday night samples the quartz from the bottom of the laft and the ledge matter were received. President Wilson and they attracted insiderable attention vesterlay. The

showing. In closing the item the paper 2ays:

"The shaft has passed through the second flow of andesite, as defined by Mr. Spurr, and is now entering into what is undoubedly the true lode porphyry or ore-bearing formation of this great district. The New York-Tonopah is exceptionally well situated at the southern edge of what is known as the Valley View system, consolidated with the Gold Hill veins and the strong ledge known to exist in the Butler claim, belonging to Oddie, Brougher & Co. There is every reason to believe that the New York will be rated with the producing mines within a comparatively short time."

Sunshine Swansea Utah Swansea Utah Cutah Channel Control C

For Twenty-two Tons. The Century company yesterday marketed a carload of concentrates consisting of about twenty-two tons, that enriched the treasury by something over \$2,200, the lot being chargeable to last month's run at the mill. Early next Porenoon Sales.

Forenoon Sales.

WABASH CALLS FOR \$15,000. Directors Levied 5c Assessment Yes-

terday Afternoon.

Madsen Gold Mining Company. Macsen Gold Mining Company.

A deal was closed in this city yesterday whereby R. W. Madsen and W. A. Worthing, of Springville, acquired the holdings of Dr. Carl Peterson in the Madsen Gold Mining company, consisting of 170,000 shares. The price required to land the block of shares was not released, but as the company's property is a valuable one, including a dozen claims or more southwest from the Annie Laurie, it was undoubtedly a pretty stiff one.

Bottom Showing Up Well.

In its review of the operations among the mines of Tonopah, the last issue of the Miner says the shaft of the New York-Tonopah, in which a large number of Salt Lakers are interested, has reached a depth of 715 feet, with the entire bottom in pink porphyry—a fact which is taken to indicate that a ledge will be tapped by it in a very short time. This pink porphyry already gives nice values in gold and the management is reported to be very much encouraged by the showing. In closing the item the paper says:

"The shaft has passed through the security of the shaft has passed through the shaft has passed the shaft has passed through the shaft has passed through the shaft

Profits of from Ten to Three Hundred per cent

have been made by holders of the following ten stocks during the past thirty days: Daly-West, Daly-Judge, Lower Mammoth, May Day, Uncle Sam, Ben Butler, Century, New York, Yankee and Star Consolidated. I have advised that silver-lead stocks must follow the metals, and this is proving correct. Don't think that prices have reached the top. The rise has

only begun.

If the metal market continues strong, deserving stocks will continue to advance. You may expect big profits by buying now. Give me an order.
